We confirm that the **EUROSPAN®** particle boards, **EGGER MDF**, **EGGER HDF**, **EGGER DHF**, **EGGER OSB**, **EURODEKOR®** MFC boards are wood based products. Therefore no export treatment is required.

After drying the chips, fibres or strands with more than 150° Celsius to a moisture content under 4%, they are mixed with synthetical glue and processed under high pressure and over 150° Celsius.

This production process can not be survived by any living plant pests. Wood based panels can be used as packing or as pallets without fumigation or heattreatment.

It is guaranteed that EGGER Products and packing/securing material are free of any kind of harmful wood pests according to FAO-IPPC-ISPM 15.
